5. The Office of the General Counsel stated further that "the statutory language could be adopted as Agency policy by embodying it in a regulation, which regulation could be authenticated by the Deputy Director (Support)". In the absence of an existing regulation into which this provision might properly be included, it was considered that approval by the Deputy Director (Support), of the administrative adoption of the provisions of P.L. 594 would be sufficient authority for this Office to utilize its provisions should a case arise coming within its scope.

6. It is recommended that the proposed adoption of the provisions of P.L. 594 for application to the Agency be approved.

Signed

Harrison G. Reynolds  
Director of Personnel
